Author index

Andreu, R., Ricart, J.E. & Valor, J. The strategic dimension of transactional information systems: some organizational implications, 223
Angell, I.O., *see* Straub, B.
Armstrong, C.J., CD-ROM: an effective use of technology? 267
Avison, D.E. & Fitzgerald, G. Information systems practice, education and research, 5
Backhouse, J., Liebenau, J. & Land, F. On the discipline of information systems, 19
Beaumont, J.R. & Walters, D. Information management in service industries: towards a strategic framework, 153
Bostrom, R.P., *see* Olfman, L.
Fitzgerald, G., *see* Avison, D.E.
Galliers, R.D. & Sutherland, A.R. Information systems management and strategy formulation: the 'stages of growth model' revisited, 89
Hirschheim, R., *see* Lyytinen, K.
Holsapple, C.W., Lai, H. & Whinston, A.B. Negotiation support systems: roots, progress and needs, 233
Klein, H., *see* Lyytinen, K.
Kopanas, V., *see* Loucopoulos, P.
Lai, H., *see* Holsapple, C.W.
Land, F., *see* Backhouse, J.
Liebenau, J., *see* Backhouse, J.
Loucopoulos, P., McBrien, P., Schumacker, F., Theodoulidis, B., Kopanas, V. & Wangler, B. Integrating database technology, rule-based systems and temporal reasoning for effective information systems: the TEMPORA paradigm, 129
Lyytinen, K., Klein, H. & Hirschheim, R. The effectiveness of office information systems: a social action perspective, 41
Mansell, G. Action research in information systems development, 29
Martinsons, M.G. A domain selection and evaluation framework for introducing knowledge-based systems in smaller businesses, 207
Mason, D. & Willcocks, L. Managers, spreadsheets and computing growth: contagion or control? 115
McBrien, P., *see* Loucopoulos, P.
Moynihan, T. & O'Conner, N. A method to help end-users validate the functional specification for a computer system, 191
Mumford, E. The design of large knowledge-based systems: the example of Digital Equipment's XSEL project, 75
O'Conner, N., *see* Moynihan, T.
Olfman, L. & Bostrom, R.P. End-user software training: an experimental comparison of methods to enhance motivation, 249
Ricart, J.E., *see* Andreu, R.
Schumacker, F., *see* Loucopoulos, P.
Stowell, F.A. Towards client-led development of information systems, 173
Straub, B. & Angell, I.O. Information systems and uncertainty: a conspiracy of misplaced confidence, 61
Sutherland, A.R., *see* Galliers, R.D.
Theodoulidis, B., *see* Loucopoulos, P.
Valor, J. *see* Andreu, R.
Walters, D., *see* Beaumont, J.R.
Wangler, B., *see* Loucopoulos, P.
Whinston, A.B., *see* Holsapple, C.W.
Willcocks, L., *see* Mason, D.
